

"Enchanted Blooms"

By Becky Hershey

Step into the vibrant and maximalist world of Becky Hershey, a self-taught mark maker and curious creative with an insatiable love for all things bold and quirky. Whether she's painting murals or crafting whimsical pattern designs, Becky's artistic journey knows no bounds, leaving a trail of color and imagination on canvases, furniture, walls, and even unsuspecting clothing. When she's not immersed in her latest creative pursuit or collaborating with clients like yourself, Becky can be found co-hosting the Inner Magic Art Club, a virtual community for inquisitive souls embarking on a journey of self-discovery and inner exploration through creative practice.

Having met her husband, Nate, a Kennett Square native with an unwavering devotion to Gallery Pizza (RIP) and all things mushroom-related, the Kennett Square Mushroom Festival quickly became a cherished tradition in their lives. Now settled in Chadds Ford, nestled on the edge of the woods that inspire her nature-infused creations, Becky and Nate share their life with their two sons and three cats. You'll often find her treasure-hunting in local thrift shops, nurturing her flower and herb gardens, venturing along hiking trails, and tackling DIY projects with confidence and enthusiasm. Join Becky on her creative journey and let her help you fill your world with bold color and magical art.

With gratitude,
Becky
